

Training and Development Plan
Division of Air Quality

Central Office Ambient Monitoring - Chemists	Source for Training	Course No.	Time Frame
Introduction to Hazardous Air Pollutants	APTI	400	6-months
Quality Assurance for Air Pollution Measurements Systems	APTI	470	6-months
Analytical Methods for Air Quality Standards	APTI	464	6-months
Air Pollution Control Orientation Course	APTI	SI 422	6-months
OSHA HAZWOPER	NCSU	HAZ	Annual
Principles and Practices of Air Pollution Control	APTI	452	1-year
Introduction to Ambient Monitoring	APTI	SI 434	1-year
Atmospheric Sampling	APTI	435	1-year
Baseline Source Inspection Techniques	APTI	445	1-year
Inspection Procedures and Safety	APTI	446	1-year
VOC Sampling and Analysis	Rutgers	VOC	As needed
Statistical Evaluation Methods for Air Pollution Data	APTI	426	As needed
General Quality Assurance Considerations for Ambient Air Monitoring	APTI	SI 471	As needed
Monitoring and Evaluation of Hazardous Air Pollutants	APTI	401	As needed
Visible Emissions Certification (Smoke School)	ETA	VE	As needed
