

15A NCAC 02D .2603 TESTING PROTOCOL

(a) Testing protocols shall include:

- (1) an introduction explaining the purpose of the proposed test, including identification of the regulations and permit requirements for which compliance is being demonstrated and the allowable emission limits;
- (2) a description of the facility and the source to be tested;
- (3) a description of the test procedures (sampling equipment, analytical procedures, sampling locations, reporting and data reduction requirements, and internal quality assurance and quality control activities);
- (4) any modifications made to the test methods referenced in the protocol; and
- (5) a description of how production or process data will be documented during testing.

(b) The tester shall not deviate from the protocol unless the tester documents the deviation.
